

Flexible Spending Accounts

The Flexible Spending Account (FSA) plans are administered by HealthEquity and offer all City of Memphis active full-time employees the opportunity to enroll. Enrollment in medical is not required to participate in an FSA. Only healthcare expenses that are considered tax-deductible by the IRS and not covered by insurance are eligible for reimbursement. When you enroll in an FSA plan, you decide in advance how much you would like to set aside from each paycheck before taxes are deducted. For every dollar you contribute to your FSA, you reduce your taxable income by that same amount. You do not pay taxes on the money you set aside. This money is available for you to use all year long to pay eligible expected and unexpected out-of-pocket healthcare or dependent expenses. It is important that you accurately determine anticipated annual expenses because there is a “**Use It or Lose It**” policy in effect. There is a grace period in which to use all the funds for the 2022 plan year. Your funds will be forfeited if not used by the end of the grace period. **Remember you must enroll each year and specify the amount you would like to allocate for the FSA.** See the chart below for additional information.

	Healthcare FSA	Dependent Care FSA
